Here are a copy of the reports from the business meeting on 5/6. Any questions or concerns, please feel free to reach out.

District 141: Brother Mike Cyscon reported that he and Brother Stenberg have 9 3rd steps up coming. Congratulations to AGC Stenberg, who recently had a successful mediation to return a member to work. Negotiations resumed this week. DL announced a raise to top out at 38.50 WN and AA are still top at 39.14. We all received a letter from IAMNPF. That is a yearly requirement to send out. The pension plan is in a better position than it was the last couple of years.

District 141: Brother Mike Quartuccio visited Load Planning this morning. Load Planning negotiations are being rescheduled. With the new uniforms for CS, the cost of the uniforms has increased. Quartuccio and PDGC Mike Klemm met with the company this week. The points are under review. He has 2 upcoming hearings. Congratulations to Meg and Tricia for getting an employee back to work that was being held out for time card fraud. It was a special case that involved wrong information given to the agent.

Ramp & Related: Brother Greg Klujewski reported that 11 members are currently out of service pending investigation. Awaiting 2 IRM decisions. Shout out to Union Steward Mike Cichonski. The company did not follow due process with an investigation, resulting in Mike grieving it and having the grievance sustained. Timecard fraud is back. Some members are using an application to scramble their GPS location. They leave the property early then swipe out on time using an app. The problem is the gate still goes up and down in the lot, leaving a digital footprint behind. Preference bidding will begin later this week but no later than Monday the 12th.

Customer Service: Sister Tricia Gaughan thanked all that came out for the union awareness day for CS. The SDR bid is out. 20 agents received written warnings for not doing lessons. The company will be disciplining uniform compliance. Lead testing has started.

Stores: Brother Chris Olmstead reported on he will be meeting with the company next Tuesday to go over issues.

American Airlines Chicago Planners: Sister Lisa Haynes reported they have two cases on the docket for next week's GRB, that's being held next here in Chicago. We have been advised that the Air Quality Test at the Central Deicing Facility, will have to wait until next winter, when the Deicing Season resumes. We want to thank the Local Lodge for the opportunity for Tammie and I to attend and participate at the American Airlines Safety Summit in Miami, last month. Collaboration and much discussion among fellow Safety Representatives. If you haven't already, please see Tammie or Lisa, for one of the CREST OSHA Dangerous Booklets. We made a commitment to Tony D., that would assist with distribution of the dangerous goods books. This morning Tammie and I sat in on Candidate Interviews. The goal is to still increase our headcount by five.

BA Customer Service: Sister Maggie Meyers Parker reported that BA gotten there first on time departure for Iberia. There is an ongoing HR investigation. Members at BA are finally asking questions about the union.

EAP: Sister Kris Treder thanked the local for supporting EAP with the mental health awareness events. Next year the goal is to get more participation from the ramp. I would like to introduce Maria Davis. She is the DL141 representative for AA. Rose Coyne thanked the local for sending her and the others to EAP 2 training.

Local Lodge Legislative: Brother Dave Roderick thanked the local for sending him and Brother Rich Jakubowski to the conference. There was a lot of good information learned. Including, they only need 4 republicans to vote with labor to get some things done. They did have one heckler that caused a scene at a rally.

Good of the association: Our Local 1487 Scholarship was presented to the daughter of storekeeper Emilia Lazich. Her daughter Angelica will be attending the University of Illinois, Champaign Urbana.

Reports of Members Sick and Disabled: A moment of silence was held for storekeeper Hitesh Amin who passed away and for the wife of District Educator Mac McGovern who is in her final stages of life.
